

PD-18B

PD-18B is a single 18inch subwoofer system, with a 18inch high power woofer speaker (220mm magnet 100mm voice coil), built in a compact cabinet of 18mm birch plywood. The low frequency is strong and clean, but not losing elasticity. Matching with MS4L or MS5L full range speaker, it can easily meet the sound needs of a small theatrical performance or a middle meeting.

Specifications	PD-18B
Type	18" subwoofer speaker
Drivers	18" aluminum alloy basin frame, Φ220mm magnet, Φ100mm voice coil;
Frequency Range	40Hz-300Hz
Power handling capacity	500W RMS; 2000W Peak
Sensitivity	98dB/1W/1m
Rated Impedance	8Ω
Max SPL	126dB RMS, 132dB Peak
Construction	18mm high-density box, black high-hardness paint; 6mm steel mesh, waterproof and dustproof; 38mm support hole; black spray;
Dimensions	546mm x 686mm x 653mm
Net Weight	38Kg
